

## Energy Code Compliance Certificate

A permanent certificate indicating compliance with the energy code will be required to be in the electrical panel. Where there is more than one value for each component, the certificate shall list the value covering the largest area. The Certificate shall list the following information:

- \* R-values of insulation installed in or on ceiling/roof, walls, foundation (slab, basement wall, crawlspace wall and/or floor) and ducts outside conditioned spaces.
- \* U-factors for fenestration.
- \* The solar heat gain coefficient (SHGC) of fenestration.
- \* The certificate shall list the type and efficiency of heating, cooling and service water heating equipment.
