

Dust Control Request

Date _____

Name _____

Address _____

Phone _____

Is this your first request for the year 2007? _____

Eligibility Requirements: (see attached)

- Applicants residing within City limits of De Soto, Kansas may receive free dust control.
- Applicants residing outside the City limits must pay a fee of \$400 for dust control.
- Applicant residence must be within three hundred (300) feet of an unpaved, City maintained road, as measured from the center of the road.
- Applications must be received before May 28th, 2007.
- A \$400 dollar fee will be due at the submittal of a second dust control request. Second dust control requests must be received by July 15th, 2007.

Dust Control Process: (see attached)

- An application of MC-30 asphalt will be applied to three hundred (300) lineal feet of the roadbed abutting each residence.
- All valid requests will receive the treatment in May, June or July, depending on weather and dust conditions.
- The oiled area will be approximately centered in front of the residence.

**Please be aware that driving upon a roadbed that has recently received an application of MC-30 asphalt may result in the material adhering to the finished surfaces of your vehicle. To avoid this, a reduced speed of 15 miles per hour is recommended. Tar and oil removal products are available at most auto part stores.
