Comment Form

Downtown Streetscape Project
CITY OF DE SOTO, KANSAS

Please provide feedback about De Soto's Downtown Streetscape project. City Hall needs your input to formulate a successful implementation plan. What types of improvements do you think are appropriate? What are your concerns about the construction activities impacting your business? Do you feel that this is a sound use of your tax dollars? Are there any specific improvements you would like to see? Is there anything the City should know about your property or business operation as we plan out the project? Any feedback is useful.

You can write your comments below and drop them by City Hall, or provide them directly to the City Engineer, Mike Brungardt at (913) 583-1182 x116 or e-mail: mbrungardt@desotoks.us.
