

### THIS BILL INCLUDES A "FUEL SURCHARGE"

The surcharge occurs when the National Average diesel price surpasses \$3.65/gal. during a billing period

WATER	50.08
SEWER	28.73
TRASH	14.00
FUEL SURCHARGE	0.75
RECYCLE	4.50
FUEL SURCHARGE	0.24
<b>CURRENT BILL</b>	<b>\$98.30</b>
<b>AMOUNT DUE</b>	<b>\$98.30</b>

In an effort to not increase regular trash rates, the trash & recycling contract with Honey Creek Disposal includes a **fuel surcharge** provision; if the national average price of diesel fuel is above \$3.65/gallon for a billing period, a surcharge will go into effect.\*

**AVG NATIONAL DIESEL PRICE FOR THIS BILLING PERIOD: \$3.724**  
**FUEL SURCHARGE PERCENTAGE: 5.35%**

#### Your surcharge total depends on two things:

1. *The actual average price per gallon:* a higher average price per gallon increases the percentage used to figure the fuel surcharge
2. *Which disposal services you use:* most accounts will have a trash surcharge and a recycling surcharge, but some will have a dumpster or extra pickup fuel surcharge as well

\*This is not a permanent charge. If the national average price of diesel stays below \$3.65 for the billing period, the surcharge drops from the bill.
